

Model	GY-25AB (Three phase)
work power	340V-430V
input current	25A
Fluctuating output power	25KW
fluctuating frequency	30-80KHZ
output current	200-1200A
the flow rate of cooling water	0.06-0.12Mpa 7.5L/Min
water temperature protection point	40C
product size	main 550x225x480mm
	transformer :350x215x380mm
net weight	main : 21.5 kg
	transformer : 17 kg
